OBJECTIVE

Experienced UI/UX designer and frontend developer with 1+ years of expertise in creating engaging web interfaces. Proficient in wireframing, prototyping, HTML, CSS, JavaScript, and front-end frameworks such as ReactJS. Seeking a challenging role to leverage skills in delivering high-quality code, strategic design, user friendly websites that provides seamless user experience.

EXPERIENCE

UI /UX Designer Trainee
Brainnest

05/2023- 06/2023   📍 Bremen, Germany

- Contributed to the creation of wireframes, prototypes, and interactive mockups using industry-standard design tools such as Figma and Sketch.
- Got deeply knowledgeable in human-centered design principles, prioritizing user needs and goals.
- Implemented user-centered design principles that led to a 45% increase in conversion rates. Successfully executed three real-world projects.

Junior UI / Frontend Developer
Genetic IIT

04/2018 – 07/2019   📍 Cumilla, Bangladesh

- Worked in a website redesign project focused on human-centered design principles, leading to a remarkable improvement in operational efficiency.
- Actively collaborated with the development team, contributing to front-end development tasks involving HTML, CSS, and JavaScript.
- Conducted extensive user experience research, while also engaging in prototyping, wireframing, and creating hi-fi mock-ups and prototypes to establish an optimal user interface design and website architecture.
